Description

Replaces Previously Approved

AGLA 05AHO R REV0308, Pg 3 Policy Insert Page AGLA 05AHO, Pg 3 7/18/05

AGLA 05AHO REV0308, Pg 6/7 Policy Insert Page AGLA 05AHO, Pg 6/7 7/18/05

AGLA 05AHO M REV0308, Pg 16/17 Policy Insert Page AGLA 05AHO M, Pg 16/17 7/18/05

AGLA 05AHO F REV 0308, Pg 16/17 Policy Insert Page AGLA 05AHO F, Pg 16/17 7/18/05

The above policy insert pages are being submitted for your consideration and approval. Each replaces a previously approved insert page as shown above.

The above insert pages will be used with individual, nonparticipating Flexible Premium Adjustable Life Insurance Policy AGLA 05AHO, previously approved 7/18/05. The insert pages will be issued as follows:

- 1. AGLA 05AHO R REV0308, Page 3 and AGLA 05AHO REV0308, Pg 6/7 will be used for both male and female issues. The John Doe information on Page 3 is for the following specifications: Male, Age 35, \$100,000 of Initial Specified Amount and Issue Date of 3/01/08.
- 2. AGLA 05AHO M REV0308, Page 16/17 will be used with male issues.
- 3. AGLA 05AHO F REV0308, Page 16/17 will be used with female issues.

To comply with 2001 CSO Mortality Table requirements, the following changes have been made to the referenced insert pages:

- 1. The reference to "1980 Commissioners Standard Ordinary Male or Female, Smoker or Nonsmoker Mortality on page 3B has been replaced with "2001 Commissioners Standard Ordinary Male or Female, Smoker or Nonsmoker Mortality Table."
- 2. The Table of Death Benefit Factors on policy page 6 has been expanded to show attained ages through age 120.
- 3. The Table of Guaranteed Monthly Cost of Insurance Rates per \$1,000 of Net Amount at Risk on policy page 16 has been updated based on the 2001 CSO Mortality Table.

POLICY SCHEDULE

Schedule of Benefits

BASIC POLICY

Years Payable

Monthly Cost Of Insurance

Flexible Premium Adjustable Life Insurance

[86]

See Page 17

Schedule of Premiums & Expense Charges

Premium Class - [Standard - Non-Tobacco]

Initial Premium - [\$807.96]

Planned Periodic Premium - [\$807.96]

Due Date (for Planned Periodic Premium) - [1st Day of Each March]

Deduction Day - [1st] Day of Each Month

Minimum Monthly Premium - [\$67.33] Minimum Monthly Premium Period - [19] Years

Premium Expense Charge Percentage - 7.50% [7.50%]

Monthly Administration Fee - \$7.70 [\$7.70]

Monthly Expense Charge Rate

Per \$1,000 of Initial Specified Amount

Years [1 - 5] - [\$0.04] [\$0.04] Years [6 and later] - [\$0.04]

Increases and Decreases in Specified Amount

Minimum Specified Amount - [\$25,000] **Minimum Increase Amount -** \$10,000

POLICY SCHEDULE

(Continued)

Surrenders

Partial Surrender Charge - \$25 Surrender Charge Period - [19] Years

Table of Surrender Charges Per \$1,000 of Initial Specified Amount

Year of Surrender	Surrender Charge Per \$1,000	Year of Surrender	Surrender Charge Per \$1,000 [\$14.40]
I	[\$24.10]	11	= · · · · · · · · · · · · · · · · · · ·
2	[23.80]	12	[12.80]
3	[23.50]	13	[11.20]
4	[23.20]	14	[9.60]
5	[22.90]	15	[8.00]
6	[21.50]	16	[6.40]
7	[20.10]	17	[4.80]
8	[18.70]	18	[3.20]
9	[17.40]	19	[1.60]
10	[16.00]	20+	0.00

The above charges apply to each \$1,000 of the Initial Specified Amount surrendered during the Surrender Charge Period. The charge for Surrender of all or any portion of the Initial Specified Amount will be equal to the rate shown above multiplied by the number of thousands of the Initial Specified Amount being surrendered. Additional Surrender Charges related to an increase in Specified Amount will begin from the effective date of the increase. These additional Surrender Charges will be provided in an endorsement to this Policy. There will be a charge not to exceed the Partial Surrender Charge shown in the Surrenders section above for each Partial Surrender.

POLICY SCHEDULE

Mortality Table

2001 Commissioners Standard Ordinary Male or Female, Smoker or Nonsmoker Mortality Table

Guaranteed Interest and Current Interest Bonus Rates

Guaranteed Interest Rate - 0.24663% per month, compounded monthly

(This is equivalent to 3.00% per year, compounded annually.)

Current Interest Bonus Year - [10th Policy Anniversary]

Current Interest Bonus Rate - [1.50%] per year

Accumulation Value Interest

Interest at the rate declared by Us will be applied to any Accumulation Value in excess of any Loan Balance. Interest at the Guaranteed Interest Rate will be credited to the amount of any outstanding Loan Balance.

Loans

Annual Policy Loan Interest Rate - 8.00%

Preferred Loan Start Date - [10th Policy Anniversary] **Annual Preferred Loan Interest Rate** - [3.00%]

Maturity Date

[March 1, 2094]

Coverage may expire prior to the Maturity Date if:

- (a) no future premiums are paid following payment of the Initial Premium; or
- (b) subsequent premiums are insufficient; or
- (c) We change the cost of insurance rates, interest rates, the Premium Expense Charge Percentage, the Monthly Administration Fee, or the Monthly Expense Charge.

Endorsement(s)

We will pay any amount which becomes payable under this Policy upon the Insured's death as soon as reasonably possible. We will credit interest at an annual rate of 8 percent on such amount after 30 days from the date when proof of death is received in Our Home Office until payment is made.

A-7.1

DEATH BENEFIT AND DEATH BENEFIT OPTIONS

DEATH BENEFIT PROCEEDS

If the Insured dies prior to the Maturity Date and while this Policy is in force, We will pay the Death Benefit Proceeds to the Beneficiary after We receive due proof and proper written claim. The Death Benefit Proceeds will be subject to:

- (a) the Death Benefit Option in effect on the date of death; and
- (b) any increases or decreases made to the Specified Amount. The Initial Specified Amount is shown in the Policy Data on Page 1.

Guidelines for changing the Death Benefit Option or the Specified Amount can be found in the section entitled "Changing Your Insurance Policy."

The Death Benefit Proceeds will be the Death Benefit Amount, after reversing any premium received after the date of death, less any Loan Balance and will be subject to the other provisions of the Owner and the Beneficiary section.

Death Benefit Option

The Death Benefit Option that You have chosen is shown in the Policy Data on Page 1 as either Option A or Option B.

Option A

If You have chosen Option A, the Death Benefit Amount will be the greater of:

- (a) the Specified Amount on the date of death; or
- (b) the Accumulation Value on the date of death multiplied by the applicable Death Benefit Factor.

Option B

If You have chosen Option B, the Death Benefit Amount will be the greater of:

- (a) the Specified Amount plus the Accumulation Value on the date of death; or
- (b) the Accumulation Value on the date of death multiplied by the applicable Death Benefit Factor.

DEATH BENEFIT FACTOR

The Death Benefit Factor will be based on the Insured's Attained Age on each Policy Anniversary as shown in the following table.

Att'd	Table (Of Death Att'd	n Benefit	Factors Att'd	
Age	Factor	Age	Factor	Age	Factor
0-40	2.50	54	1.57	68	1.17
41	2.43	55	1.50	69	1.16
42	2.36	56	1.46	70	1.15
43	2.29	5 <i>7</i>	1.42	<i>7</i> 1	1.13
44	2.22	58	1.38	72	1.11
45	2.15	59	1.34	73	1.09
46	2.09	60	1.30	74	1.07
47	2.03	61	1.28	<i>7</i> 5-90	1.05
48	1.97	62	1.26	91	1.04
49	1.91	63	1.24	92	1.03
50	1.85	64	1.22	93	1.02
51	1.78	65	1.20	94	1.01
52	1.71	66	1.19	95-120	1.00
53	1.64	67	1.18		

CHANGING YOUR INSURANCE POLICY

You may request a change in Specified Amount and in Death Benefit Option to become effective any time after the first Policy Anniversary. Your request must be submitted to Our Home Office in writing.

INCREASING THE SPECIFIED AMOUNT

Any increase in the Specified Amount cannot be less than the Minimum Increase Amount shown on the Policy Schedule. We will require a supplemental application and, except as provided in any Additional Insurance Option Rider, evidence of insurability satisfactory to Us for any increase in the Specified Amount. An increase will be effective on the monthly Deduction Day on or next following the date the application for increase is approved by Us.

DECREASING THE SPECIFIED AMOUNT

Any decrease will go into effect on the monthly Deduction Day following the day We receive the request. The

Death Benefit Amount remaining in effect after any decrease cannot be less than the greater of:

- (a) the Minimum Specified Amount shown on the Policy Schedule; and
- (b) any Death Benefit Amount required to qualify this Policy as life insurance under applicable tax laws.

Any such decrease will be applied in the following order:

- (a) against any Specified Amount provided by an increase, beginning with the most recent; and
- (b) against the Initial Specified Amount.

Any decrease in Specified Amount will be subject to applicable Surrender Charges on a pro rata basis, and any remaining Surrender Charge will be reduced on a pro rata basis.

CHANGING YOUR INSURANCE POLICY

(Continued)

CHANGING THE DEATH BENEFIT OPTION

You may request a change in the Death Benefit Option You have chosen.

- (a) If You request a change from Option A to Option B: the new Specified Amount will be the Specified Amount, prior to change, less the Accumulation Value as of the effective date of the change, but not less than zero.
- (b) If You request a change from Option B to Option A: the new Specified Amount will be the Death Benefit Amount as of the effective date of the change.

We will not require evidence of insurability for a change in the Death Benefit Option. The change will go into effect on the monthly Deduction Day following the date We receive Your request for change.

CHANGING THE TERMS OF YOUR POLICY

Any change in Your Policy must be approved by one of Our officers. No agent has the authority to make any changes or waive any of the terms of Your Policy.

POLICY VALUES

ACCUMULATION VALUE ON THE DATE OF ISSUE

The Accumulation Value on the Date of Issue will be:

- (a) the Net Premium received; less
- (b) the Monthly Deduction for the first Policy Month. (See the How We Calculate A Monthly Deduction provision.)

The first Deduction Day is the Date of Issue. The monthly Deduction Day is shown on the Policy Schedule.

ACCUMULATION VALUE ON EACH MONTHLY DEDUCTION DAY

On each monthly Deduction Day after the Date of Issue, We will determine the Accumulation Value as follows:

- (a) We will take the Accumulation Value as of the last monthly Deduction Day; and
- (b) add all Net Premiums received since the last monthly Deduction Day; and
- (c) add the interest earned for the month; interest will be applied for the entire month on the excess of the Accumulation Value on the last monthly Deduction Day over any Partial Surrenders made since the last monthly Deduction Day; and
- (d) subtract any Partial Surrender made and any charges for Partial Surrenders since the last monthly Deduction Day; and
- (e) subtract any Surrender Charge assessed as a result of a decrease in Specified Amount effective on the monthly Deduction Day; and
- (f) subtract the Monthly Deduction for the Policy

Month following the monthly Deduction Day. (See the How We Calculate A Monthly Deduction provision.)

ACCUMULATION VALUE ON ANY DAY OTHER THAN A MONTHLY DEDUCTION DAY

The Accumulation Value on any day other than a monthly Deduction Day will be:

- (a) the Accumulation Value as of the last monthly Deduction Day;
- (b) plus all Net Premiums received since the last monthly Deduction Day;
- (c) less any Partial Surrenders paid and any charges for Partial Surrenders since the last monthly Deduction Day.

CASH VALUE

The Cash Value of this Policy will be equal to the Accumulation Value less the Surrender Charge, if any.

CASH SURRENDER VALUE

The Cash Surrender Value of this Policy will be equal to the Cash Value less any Loan Balance.

MONTHLY DEDUCTIONS

Unless this Policy is being continued in force under the Minimum Monthly Premium provision, a Monthly Deduction from the Accumulation Value may be made only if the Cash Surrender Value is equal to or greater than the Monthly Deduction. Each Monthly Deduction deducted from the Accumulation Value will cause an equal reduction in the Cash Surrender Value. If the Cash Surrender Value on a monthly Deduction Day is not sufficient to meet the Monthly Deduction for the current month, this Policy will be subject to the Grace Period and Minimum Monthly Premium provisions.

LIMITATIONS AND EXCLUSIONS UNDER THE ARKANSAS LIFE AND HEALTH INSURANCE GUARANTY ASSOCIATION ACT

Residents of this state who purchase life insurance, annuities or health and accident insurance should know that the insurance companies licensed in this state to write these types of insurance are members of the Arkansas Life and Health Insurance Guaranty Association ("Guaranty Association"). The purpose of the Guaranty Association is to assure that policy and contract owners will be protected, within certain limits, in the unlikely event that a member insurer becomes financially unable to meet its obligations. If this should happen, the Guaranty Association will assess its other member insurance companies for the money to pay the claims of policy owners who live in this state and, in some cases, to keep coverage in force. The valuable extra protection provided by the member insurers through the Guaranty Association is not unlimited, however. And, as noted in the box below, this protection is not a substitute for consumers' care in selecting insurance companies that are well-managed and financially stable.

DISCLAIMER

The Arkansas Life and Health Insurance Guaranty Association ("Guaranty Association") may not provide coverage for this policy. If coverage is provided, it may be subject to substantial limitations or exclusions and require continued residency in this state. You should not rely on coverage by the Guaranty Association in purchasing an insurance policy or contract.

Coverage is NOT provided for your policy or contract or any portion of it that is not guaranteed by the insurer or for which you have assumed the risk, such as non-guaranteed amounts held in a separate account under a variable life or variable annuity contract.

Insurance companies or their agents are required by law to provide you with this notice. However, insurance companies and their agents are prohibited by law from using the existence of the Guaranty Association to induce you to purchase any kind of insurance policy.

1023 West Capitol
Little Rock, Arkansas 72201

Arkansas Insurance Department 1200 West Third Street Little Rock, Arkansas 72201-1904

(please turn to back of page)

The state law that provides for this safety-net is called the Arkansas Life and Health Insurance Guaranty Association Act ("Act"). Below is a brief summary of the Act's coverages, exclusions and limits. This summary does not cover all provisions of the Act; nor does it in any way change anyone's rights or obligations under the Act or the rights or obligations of the Guaranty Association.

COVERAGE

Generally, individuals will be protected by the Guaranty Association if they live in this state and hold a life, annuity or health insurance contract or policy, or if they are insured under a group insurance contract, issued by a member insurer. The beneficiaries, payees or assignees of policy or contract owners are protected as well, even if they live in another state.

EXCLUSIONS FROM COVERAGE

However, persons owning such policies are NOT protected by the Guaranty Association if:

- They are eligible for protection under the laws of another state (this may occur when the insolvent insurer was incorporated in another state whose guaranty association protects insureds who live outside that state);
- The insurer was not authorized to do business in this state;
- Their policy or contract was issued by a nonprofit hospital or medical service organization, an HMO, a fraternal benefit society, a mandatory state pooling plan, a mutual assessment company or similar plan in which the policy or contract owner is subject to future assessments, or by an insurance exchange.

The Guaranty Association also does **NOT** provide coverage for:

- Any policy or contract or portion thereof which is not guaranteed by the insurer or for which the owner has assumed the risk, such as non-guaranteed amounts held in a separate account under a variable life or variable annuity contract;
- Any policy of reinsurance (unless an assumption certificate was issued);
- Interest rate yields that exceed an average rate;
- Dividends and voting rights and experience rating credits;
- Credits given in connection with the administration of a policy by a group contract holder;
- Employers' plans to the extent they are self-funded (that is, not insured by an insurance company, even if an insurance company administers them);
- Unallocated annuity contracts (which give rights to group contractholders, not individuals).
- Unallocated annuity contracts issued to/in connection with benefit plans protected under Federal Pension Benefit Corporation ("FPBC")(whether the FPBC is yet liable or not);
- Portions of an unallocated annuity contract not owned by a benefit plan or a government lottery (unless the owner is a resident) or issued to a collective investment trust or similar pooled fund offered by a bank or other financial institution);
- Portions of a policy or contract to the extent assessments required by law for the Guaranty Association are preempted by State or Federal law;
- Obligations that do not arise under the policy or contract, including claims based on marketing materials or side letters, riders, or other documents which do not meet filing requirements, or claims for policy misrepresentations, or extra-contractual or penalty claims;
- Contractual agreements establishing the member insurer's obligations to provide book value accounting guarantees for defined contribution benefit plan participants (by reference to a portfolio of assets owned by a nonaffiliate benefit plan or its trustees).

LIMITS ON AMOUNT OF COVERAGE

The Act also limits the amount the Guaranty Association is obligated to cover: The Guaranty Association cannot pay more than what the insurance company would owe under a policy or contract. Also, for any one insured life, the Guaranty Association will pay a maximum of \$300,000 - no matter how many policies and contracts there were with the same company, even if they provided different types of coverages. Within this overall \$300,000 limit, the Association will not pay more than \$300,000 in health insurance benefits, \$300,000 in present value of annuity benefits, or \$300,000 in life insurance death benefits or net cash surrender values - again, no matter how many policies and contracts there were with the same company, and no matter how many different types of coverages. There is a \$1,000,000 limit with respect to any contract holder for unallocated annuity benefits, irrespective of the number of contracts held by the contract holder. These are limitations for which the Guaranty Association is obligated before taking into account either its subrogation and assignment rights or the extent to which those benefits could be provided out of the assets of the impaired or insolvent insurer.

ACTUARIAL DESCRIPTION OF FLEXIBLE PREMIUM ADJUSTABLE LIFE INSURANCE POLICY

Policy Form AGLA 05AHO

I. DESCRIPTION OF POLICY CHARACTERISTICS

A. Death Benefits

The policy provides adjustable life insurance coverage on the Insured. Insurance on the life of the Insured is integrated with the accumulation value of the policy. The death benefit will not be less than the accumulation value on the date of death multiplied by the death benefit percentage factors shown in the policy.

B. Cash Values

The accumulation value is an accumulation with interest of net premiums, less charges assessed at the beginning of each policy month equal to the sum of the following:

- 1. The cost of insurance on the net amount at risk under the policy.
- 2. A monthly administration fee not to exceed \$7.70 per month.
- 3. A monthly expense charge during the monthly expense charge duration.

The monthly expense charge is calculated as the applicable Monthly Expense Charge Rate per \$1,000 multiplied by the number of \$1,000's of Specified Amount. If the Specified Amount is increased, an additional monthly expense charge will be applied. The additional monthly expense charge will be determined by multiplying the number or units of the increase by the appropriate Monthly Expense Charge per \$1,000 rate for the Insured's attained age on the effective date of the increase. This memorandum is written assuming the monthly expense charge duration is for all years.

The cash value is equal to the accumulation value less a surrender charge. The surrender charge declines to zero in the twentieth policy year, or at attained age 120, if earlier. The cash surrender value is equal to the cash value less any loan balance.

If the Specified Amount is increased, an additional surrender charge will be applied. The additional surrender charge will be determined by multiplying the number or units of the increase by the appropriate surrender charge rate per 1,000 for the Insured's age on the effective date of the increase.

On a decrease in Specified Amount, the surrender charge is decreased proportionately, and the accumulation value is charged with the amount of the decrease.

Continuation of Benefits (Nonforfeiture)

For any month in which no premium is received, benefits provided under the policy will be continued, and the accumulation value will continue to be determined as described in section B. above. All policy charges during such continuation period will continue to be assessed. Benefits will be so continued until the earlier of the date the policy terminates in accordance with the grace period provision, the date the policy is surrendered, the maturity date, or the date the Insured dies.

If the Cash Surrender Value in a given monthly is not sufficient to pay the monthly deduction and any loan interest due, the policy will enter the grace period unless the Minimum Monthly Premium Period has not expired and the following requirements are met:

- (a) The Accumulation Value less any loan balance must be sufficient to provide for the monthly deduction and any loan interest due; and
- (b) The sum of premiums paid to date must equal or exceed:

- 1. The sum of the Minimum Monthly Premiums due from the date of issue; plus
- 2. Any partial surrenders and surrender charges thereon, and any increase in the loan amount since the date of issue.

The Minimum Monthly Premium Period starts on the date of issue and lasts for 19 years or through attained age 119, if earlier.

Subject to the termination conditions described above, for any month in which no premium is received, benefits provided under the policy continue, and the accumulation value will continue to be determined as described in B above. Cost of insurance calculations during such continuation will utilize the same cost of insurance rates as those that would otherwise be used.

D. Flexibility

At any time after the first policy year, the owner may change the Specified Amount. The Specified Amount may not be decreased below the minimum permitted by Company rules. Evidence of insurability is required for any increase in the Specified Amount.

Flexible premium payments are permitted. An initial premium is payable upon delivery of the policy. Subsequent premiums may be paid at any time and in any amount, subject to company rules.

E. <u>Underwriting Classes</u>

The following premium classes are available with the policy:

Preferred Non-tobacco Standard Non-tobacco Preferred Tobacco Standard Tobacco Substandard Standard (issue ages 0 – 19)

Policy charges and policy values will vary by premium class.

II. BASIS OF VALUES

A. Interest

The guaranteed minimum interest rate applied in the determination of accumulation value is 3.00% per annum. However, the company may apply a higher rate of interest to that portion of the accumulation value in excess of any outstanding policy loan indebtedness.

Because of the retrospective approach used for the calculation of the accumulation value, the use of an increased rate of interest produces a higher accumulation value. Therefore, such use is not in conflict with the maximum interest rate defined in the Standard Nonforfeiture Law.

B. Cost of Insurance

The guaranteed maximum cost of insurance rates applied in the determination of accumulation values for Insureds with a Standard rating class are based on the 2001 Commissioners' Standard Ordinary Mortality Table, age last birthday. Separate NAIC tables are used for Male and Female Aggregates for ages less than 20; and for Male Nonsmokers, Male Smokers, Female Nonsmokers and Female Smokers for ages greater than 19.

The guaranteed rates for substandard lives reflect appropriate additions for medical impairments and special hazards.

The company may use cost of insurance rates lower than such guaranteed maximums, thus producing lower costs of insurance and higher accumulation values than those generated by the guaranteed cost of insurance rates. A table of guaranteed cost of insurance rates is attached.

- C. The same basis of values applies whether or not the policy is currently in a premium paying status.
- D. The policy provides for the determination of accumulation values on a monthly basis, using the retrospective approach described in I.B. above. The policy also provides for a cash value, applicable only upon surrender of the policy prior to the maturity date. The cash value provided is the then accumulation value less the surrender charge. The surrender charge declines to zero in the twentieth policy year, or at attained age 120, if earlier.

III. POLICY VALUE FORMULAS

The following formulas develop the guaranteed cash values for this policy form:

- t = policy month as measured from original issue date
- i = interest rate applied to cash value for month t. This rate is equal to the monthly equivalent of a 3.00% annual rate, or $1.03^{1/12} 1 = 0.24663\%$.
- q = monthly cost of insurance rate for this policy month based on the aforementioned mortality table. $q = (1-Qcso)^{-(-1/12)} 1$, except for ages 111-120 (rate is set to 83,33)
- D = total death benefit at the beginning of month t
- E = sum of the monthly administration fee (\$7.70) and the monthly expense charge due.
- G = gross premium collected in month t
- N = net premium in month t
- $= 0.925 \times G$
- A_{t-1} = accumulation value on the anniversary date at the end of month t 1
- A = beginning accumulation value for COI calculation = $A_{t-1} + N$
- C = monthly cost of insurance for month t, calculated as:
 - $= q \times (D/(1+i) A)$
- A_t = accumulation value at end of month t
 - $= (A C E) \times (1 + i)$
- S = surrender charge for policy year t
 - the per 1,000 amount shown in the contract multipled by the number of 1,000's of Specified Amount.
- CV = cash value at the end of policy month t.
 - = $A_t S$

IV. Demonstration of Standard Nonforfeiture Law Compliance

This contract has charges that vary by duration. Therefore, in order to demonstrate compliance with the Standard Nonforfeiture Law (SNFL), we must demonstrate that the surrender charges are less than or equal to the unamortized unused initial expense allowances. All surrender charges for this product were calculated with a nonforfeiture interest rate of 3.0%. The unused initial expense allowance is calculated by taking the SNFL expense allowance and reducing this by the excess first year expense charge. The excess first year expense charge is calculated by taking the first year expense charge and reducing this by the average of the expense charges for policy years 2-20.

The formula for the SNFL expense allowance is:

EA =
$$0.01 \times ELA + 1.25 \times Min \{PNL, 0.04 \times ELA\}$$
, where

PNL = Nonforfeiture net level premium = present value of benefits divided by present value of \$1.00 payable annually for duration of the contract.

ELA = Average amount of insurance for the first 10 policy years.

The formula for the unamortized unused initial expense allowance at the end of year t is

$$UU_t = (EA - excess first year expense charge) \times (\ddot{a}_{x+t} / \ddot{a}_x)$$

The formulas above are calculated based on the 2001 CSO, Male/Female/Aggregate, Non-smoker/Smoker, Age-Last-Birthday Mortality Tables and 3% interest.

Sample Calculation: Male, age 35, Standard Non-tobacco

EA =
$$0.01 \times \text{ELA} + 1.25 \times \text{Min } \{\text{PNL}, 0.04 \times \text{ELA}\}$$

= $0.01 \times 1,000 + 1.25 \times \text{Min } \{12.57989, 0.04 \times 1,000\}$
= $10 + 1.25 \times \text{Min } \{12.57989, 40\}$
= 25.72486

Since the policy does not have any expense charges that vary by policy year (monthly expense charge duration is assumed to be for all years), the excess first year charge for the sample policy is 0.00.

Therefore.

$$UU_{1} = (25.72486 - 0) \times (\ddot{a}_{35+t} / \ddot{a}_{35})$$
$$= 25.72486 \times (\ddot{a}_{35+t} / \ddot{a}_{35})$$

For example, in year 5,

$$UU_5 = 25.72486 \times (\ddot{a}_{40} / \ddot{a}_{35})$$

$$= 25.72486 \times (22.27753 / 23.73116)$$

$$\approx 24.15$$

A comparison of the surrender charges and the unamortized unused initial expense allowance for the sample policy is shown in the table below:

Year	Unamortized Unused Initial Expense Allowance	Surrender Charge
1	24.89	24.10
2	24.59	23.80
3	24.29	23.50
4	23.98	23.20
5	23.66	22.90
6	23.34	21.50
7	23.01	20.10
8	22.67	18.70
9	22.32	17.40
10	21.97	16.00
11	21.61	14.40
12	21.25	12.80
13	20.87	11.20
14	20.49	9.60
15	20.10	8.00
16	19.70	6.40
17	19.30	4.80
18	18.89	3.20
19	18.47	1.60

The table above shows that for the sample policy, the surrender charge in each year is less than or equal to the unamortized unused initial expense allowance. The surrender charges for years 1-5 were set slightly lower than the unamortized unused initial expense allowance. For years 6-20, the surrender charge is linearly graded to 0 by year 20. Since the unamortized unused initial expense allowance curve is concave downward, the surrender charges will not be greater than the unamortized unused initial expense allowance. Thus, the cash surrender values will never be less than the minimum nonforfeiture values.

V. RESERVES

The statutory reserves are defined by the Standard Valuation Law and by the regulations for Universal Life Insurance which interpret the Standard Valuation Law. The prescribed method for reserves is the Commissioners' Reserve Valuation Method (CRVM). Any additional reserve required for the Minimum Premium Period provision will be calculated according to Model #830 (Valuation of Life Insurance Policies Model Regulation). In no event will the total reserves be less than the cash surrender values.

The valuation interest rate will not be greater than the maximum allowed on the date of issue. In 2008, the maximum valuation interest rate is 4.00%, unless a lower rate is required in a specific state. The valuation mortality table is the appropriate 2001 CSO Male/Female/Aggregate, Smoker/Nonsmoker, Age-last-birthday table.

DEFINITION OF TERMS

PVFB = Present value of future guaranteed benefits at issue assuming the future Guaranteed Maturity Premiums are paid.

 $PVFB_s$ = Present value of future guaranteed benefits at the end of policy year s. In the case where $r_s = 1$, $PVFB_s$ is less than 1, $PVFB_s$ is generated using AV_s .

AV = Accumulation value of policy at the end of policy year s.

GMP = Guaranteed Maturity Premium, which is the level gross premium that will mature the policy based on guarantees at issue.

GMF_s = Guaranteed Maturity Fund at the end of policy year s, which is that fund which when combined with future GMPs will mature the policy based on guarantees at issue.

ELA = Equivalent level death benefit

 $= PVFB^{1}/A_{y}$

$$r_s = \min \left\{ \frac{AV_s}{GMF_s}; 1 \right\}$$

$$\overline{P}_{x+1} = \overline{PVFB}_1 / \overline{a}_{x+1}$$

$$_{19}\overline{P}_{x+1} = ELA \cdot \overline{A}_{x+1} / \overline{a}_{x+1:19}$$

 $\overline{P}_x = \overline{PVFB} / \overline{a}_x$, calculated using continuous functions

If
$$\overline{P}_{x+1} \le_{19} \overline{P}_{x+1}$$
 then

$$\overline{B} = \overline{P}_x + (\overline{P}_{x+1} - 1000\overline{c}_x) / \overline{a}_x$$

If
$$\overline{P}_{x+1} > 19 \overline{P}_{x+1}$$
 then

$$\overline{B} = \overline{P}_x + (19\overline{P}_{x+1} - 1000\overline{c}_x) / \overline{a}_x$$

$$s\overline{V} = r_s (\overline{PVFB}_s - \overline{Ba}_{x+s})$$

Note that if $_s \overline{V} < CV_s$, the cash surrender value at the end of policy year s, CV will be held as the reserve.

Sample statutory reserve calculation:

Male, age 35, Standard Non-tobacco

Assume credited interest rate = 3% and guaranteed charges.

Annual premium: \$1,714.08 Specified Amount: \$100,000

The values shown below are expressed on a per \$1,000 basis assuming a Specified Amount of \$100,000.

ELA = \$1,000

$$\overline{P}_{36}$$
 = $\overline{PVFB}/\overline{a}_{36}$
= 215.47513 / 20.00282
= 10.77224
 $_{19}\overline{P}_{36}$ = 1000 $\overline{A}_{36}/\overline{a}_{36\overline{19}}$
= 215.47513 / 13.18688
= 16.34012

$$1000_{C_{35}}^{-} = 1.09832$$

$$\overline{\mathbf{P}}_{35}$$
 = $\overline{PVFB}/\overline{a}_{35}$
= 208.05389 / 20.19204
= 10.30376

$$\overline{B}_{35} = \overline{P}_{35} + (\overline{P}_{36} - 1000 \overline{c}_{35}) / \overline{a}_{35}$$

$$= 10.30376 + (10.77224 - 1.09832) / 20.19204$$

$$= 10.78285$$

For the sample policy, $GMF_5 = AV_5$ are 69.28. Therefore, $r_5 = 1$.

$$5\overline{V} = \text{Max} \{ r_5 \left[\overline{PVFB_5} - (\overline{B_{35}a_{40}}) \right], \text{CV}_5 \}$$

$$= \text{Max} \{ 1.0 \left[247.80074 - (10.78285) (19.17862) \right], 46.38 \}$$

$$= \text{Max} \{ 41.0004, 46.38 \}$$

$$= 46.38.$$
